ABOUT REBOOTS GO LITE

The smart and battery-powered Reboots Go Lite device is smaller, lighter, and quieter than any comparable device currently** on the market. With up to 180 mmHg, the new addition offers enough power for a successful regeneration. It also features a connection to the new Reboots app, which allows convenient control of the device via smartphone. At a price of 499€, the Reboots Go Lite Recovery Boots enable effective regeneration at the best price-performance ratio. For more information about Reboots, visit: reboots.com.
